Atterbury of P. R. R. and Phillips of Firemen Confer.

LIST OF NAMES GONE OVER

Trainmen and Conductors Preparing Demands for More Pay.

Vice-president W. W. Atterbury of the Pennsylvania Railroad, arbitrator chosen under the Erdman act to represent the Eastern railroads in the arbitration of the firemen's demands, reached this city yesterday from Philadelphia. He held a preliminary conference in the Waldorf-Astoria Hotel with Albert Phillips, vicepresident of the Brotherhood of Locomotive Firemen and Enginemen, the arbitrator chosen by the firemen, over the question of appointing the third arbitator to complete the arbitration board, but they came to no conclusion after going over a list of names and will probably meet again to-day.

Mr. Atterbury returned to Philadelphia after the conference was over. Under the Erdman act they must appoint the third arbitrator to complete the board within five days, failing in which he will be named by Judge Martin A. Knapp of the Commerce Court and acting United State Labor Commissioner G. W. W. Hangar, so that the two arbitrators have only three days left. The award of the board under the act must be made within thirty days after the third member is appointed

Officers of the Brotherhood of Railroad Trainmen and the Order of Railfoad Conductors are preparing to meet the conference committee of the railroads to take up their demands, made some time ago, as soon as the arbitrators have announced their award in the case of the firemen. The president of the trainmen's organization is William G. Lee. A. B. Garretson is president of the conductors organization.

organization.

Trainmen and conductors on the East-ern roads, which involve about 55,000 men, demand among other things in-creases in wages averaging 15 per cent.

men, demand among other things increases in wages averaging 15 per cent.

Trainmen and conductors made demands jointly for new wage schedules in 1910 on all the roads separately, and these demands were taken up with the individual roads. The Faltimore and Ohio Railroad officials conceded a large advance in wages, which was decided on by the two organizations as a standard of what they were willing to accept.

The demands were arbitrated as far as the New York Central railroads were concerned by a voluntary arbitration board. The present arbitration of the firemen's demands is the first case of arbitration under the Erdman act in the case of the Eastern railroads, although it was invoked in a number of cases in arbitrating demands made on the Western roads.

when the New York Central demands were arbitrated in 1910 the Baltimore and Ohio standard was awarded, and subsequently most of the other roads settled on these terms. Shortly afterward advances in wages were granted to the engineers and others. The railroads then applied to the Interstate Commerce Commission for power to raise the rates on freight commensurately with the advances granted, but the commission refused to sanction a general increase of freight rates.

## DIVORCES YOUNG CORBETT.

Wife Who Chanced to See Pugilist and Woman Gets Decree.

William H. Rothwell, known as "Young Corbett," ex-pugifist and now an official referee, did not appear before Supreme Court Justice Newburger yesterday when a suit for divorce brought by his wife, Mrs. Daisy Rothwell, was called. The court decided that evidence warranted a

decree for Mrs. Rothwell.

Mrs. Rothwell testified that she married Young Corbett at San Rafael, Cal. in 1909, a day after he was defeated by Johnny Frayne. She said she had prom-ised to wed him if he won, and when he was defeated she didn't have the heart

refuse him.
Mrs. Rothwell and her mother chanced to see the pugilist and a young woman walking together near Times Square, fol-lowed the couple to a hotel, and then called friends who formed a raiding party.

## STILL UNITED IN DEATH.

Aged Couple Die as They Wished, on the Same Day.

PHILADELPHIA. Feb. 20.-After being wedded for more than half a century and expressing the wish that they dle together, Mr. and Mrs. Alexander Alexander of 1425 North Seventh street died within twelve hours of each other to-day. Mr. Alexander was 88 years old and his wife was 77. Mrs. Alexander had been ill for sev-

eral weeks and during that time her husband was constantly at her bedside. He became so exhausted by his constant vigil that he was removed to another room and three hours later he died. His wife constantly called for him and when he failed to respond, the news of his death having been kept from her, she too passed away. Mr. Alexander was Confederate veteran.

Prizes for Engineer Orators.

ITHACA, Feb. 20 .- To stimulate interest in public speaking among students study-ing mechanical and civil engineering and architecture at Cornell University, G. H. Baker, a graduate of the Cornell Civil Engineering College in the class of 1886, has founded a prize for which he has given \$2,000. There are to be eight competitors each year, the winner to receive \$100 and the second man \$20.
